

MAMAMIA

design Gianfranco Marabese 2003

Collezione che riprende ed attualizza formalmente, segni distintivi del design nordico, unendoli ad atmosfere di sapore orientale. Nove anelli in metallo di misure diverse formano un diffusore con fonte luminosa interna netta e precisa, che genera sulle superfici effetti e riflessi suggestivi.

Collection that takes up and updates formally, distinctive signs of nordic design, combining them with an oriental taste. Nine metallic rings with different diameters make up the shade with light source inside, that creates suggestive effects and reflexes.
